ABOUT

AMDEAS TECHNICAL SERVICES

ATS was established to provide support to the construction activities within the Middle East, providing a range of expertise in engineering design and construction to various sectors of the industry.

ATS has, since, continued to expand and diversify its services, establishing business entities within all emirates of UAE.

ATS owes its success to hard work and determination shared by all its employees and management, having all previously operated at senior levels of Management and Construction on the national stage.

ATS strong reputation has been built on the professional and efficient service we provide to all our clients. Our client list reflects the highest levels of commitment and excellence we deliver. Our approach to project ensures that each project is completed with maximum efficiency and to the highest of standards.

ATS always act fairly, ethically and honestly in dealing with our employees, customers and vendors in all situations. Treat people how you want to be treated.

ATS will be recognized as the best building services provider by each of our customers. What sets us apart from other contractors is that you will have direct contact with the company's ownership. You will not be transferred around to different departments. Again one phone call or one email is all it takes for a response when required.

MISSION

Within ATS, our primary objective is to grow and achieve recognition and status for our commitment to deliver an unparalleled service, unequalled quality and always within time & budget philosophy, for both ourselves and our clients, whilst remaining dedicated towards the task, mission & core values. ATS will deliver ongoing plant cost-savings by decreasing maintenance costs through consistent, efficient and accurate inspections and engineering services, inclusive of prioritized recommendations, capital budgeting, scheduling, and resource allocation for future outages. Also, our clients have acquired markedly improved safety records as a result of the premier services we provide.

VISION

ATS are committed to being recognized as the natural choice to offer our services to Middle East and global construction project clients. TTS's growing reputation for the services we offer our clients is unrivalled. We have created the organization structure and supporting processes to deliver optimal results. Our corporate culture fully understands that ultimately, this business is about how well we continue to serve our clients

CORE VALUE

- Commitment
- Knowledge & Experience
- Reliability
